PROFESSIONAL SUMMARY

Senior PHP Developer with 8 years of experience building and scaling web applications using PHP, WordPress, Node.js and Laravel. Specialized in WooCommerce platforms, REST API architecture, and payment gateway integrations (Stripe, Razorpay), with a strong track record in Docker-based development, CI/CD automation, security hardening, and performance optimization on high-traffic production sites. Comfortable owning projects end to end from architecture and development through deployment and client communication and often the first person the team turns to when production issues need fast, reliable fixes.

CORE SKILLS

PHP (Core & OOP) · Laravel · Node.js · CodeIgniter · WordPress · WooCommerce · Custom Plugin Development · Theme Customization · Elementor & WPBakery · REST API Development · Docker · Stripe & Razorpay Integration · CI/CD · GitHub Actions · Security Hardening · MySQL · Git · JIRA · Agile / Scrum · Docker

WORK EXPERIENCE

Software Developer — Velan Info Services

Dec 2024 – Present

- Backend developer focused on PHP, Laravel, and WordPress custom development, building dynamic, scalable web applications that hold up under production traffic.
- Develop custom WordPress themes, plugins, REST API integrations, and WooCommerce customizations as the core of day-to-day work.
- Work in two-week Agile sprints with daily standups, sprint planning, and retrospectives to catch issues early and adjust quickly.
- Built GitHub Actions CI/CD pipelines from scratch, automating builds, linting, and deployments to staging and production.
- Containerized Laravel and WordPress applications with Docker for consistent local, staging, and production environments.
- Led a full security audit across WordPress environments, covering user roles, vulnerable plugins, SSL configuration, firewall rules, and wp-config hardening.
- Built and maintained REST APIs consumed by mobile apps and third-party platforms integrating with the WordPress backend.
- Implemented Stripe and Razorpay payment gateways end to end, including webhook listeners, failure recovery flows, and full transaction logging.
- Diagnosed and resolved performance bottlenecks on high-traffic sites, reducing load times by approximately 60% through query optimization, object caching, and asset delivery improvements.

PHP & WordPress Developer — WedesignTech Pvt Ltd

Mar 2022 – Mar 2024

- Specialized in WooCommerce and Elementor customization using PHP, HTML, CSS, and JavaScript as the daily stack.
- Designed and built custom WordPress themes, plugins, and e-commerce solutions tailored to individual client requirements.
- Customized third-party plugins, including WooCommerce and Elementor, to extend functionality beyond out-of-the-box capability.
- Optimized website performance and ensured consistent behavior across all major browsers.
- Delivered client-focused web solutions through strong problem-solving and iterative development.

PHP Developer — Streetbell Technologies Pvt Ltd

Jun 2021 – Mar 2022

- Wrote backend code and built efficient, reusable PHP modules for client projects.
- Developed backend portals with optimized database design.
- Troubleshoot application and code-level issues, strengthening debugging and root-cause analysis skills.

Web Developer — Pearl Software's Inc

Nov 2018 – May 2021

- Designed, developed, and implemented software applications across multiple client websites.
- Built cross-browser compatible sites, ensuring consistency across Firefox, Chrome, and Safari.
- Represented the web team in stakeholder meetings, discussing project goals and milestones.
- Worked with PHP, SQL, JavaScript, AJAX, and JSON, and converted design mockups into working front-end code.

TECHNICAL SKILLS

Languages: PHP (Core & OOP), JavaScript (ES6+), HTML5, CSS3, MySQL, jQuery, AJAX

Frameworks: Laravel, Node.js, CodeIgniter

WordPress: Core, Custom Plugin Development, Theme Customization, WooCommerce, Custom Post Types, REST API, Multisite.

Page Builders: Elementor (custom widgets & addons), WPBakery (custom addons, shortcodes)

DevOps & Git: Docker, Git, GitHub, GitHub Actions, CI/CD Pipelines, SSH, Linux CLI, Staging/Production Workflows

Payments: Stripe API, Razorpay API, Webhook Handling, Transaction Validation, Third-Party Payment Integrations

APIs & Integrations: REST API Development, Third-Party API Integrations, WooCommerce API

Security: Input Validation, XSS/CSRF Prevention, wp-config Hardening, Plugin Vulnerability Audits

Performance: Query Optimization, Object Caching, Asset Minification, CDN, Core Web Vitals

Methodology: Agile, Scrum, Sprint Planning, Daily Standups, Retrospectives

Tools: JIRA, Postman, phpMyAdmin, Chrome DevTools, cPanel/WHM, WP-CLI

KEY PROJECTS & HIGHLIGHTS

- **Plugin Development:** Built reusable WordPress plugins with custom post types, admin panels, and shortcode modules.
- **WooCommerce Customization:** Delivered checkout, cart, and product-page solutions across multiple stores, including shipping rules, tax configuration, and order automation.
- **Payment Gateway Integrations:** Implemented Stripe and Razorpay from scratch on multiple projects, handling edge cases and webhook logic efficiently.
- **CI/CD & Deployment Pipelines:** Migrated teams from manual FTP deployments to automated GitHub Actions pipelines for builds, linting, and deploys.
- **Security & Performance:** Fixed vulnerabilities, hardened wp-config and .htaccess, and reduced site load times from 6–8 seconds to under 2 seconds through query optimization and caching.

EDUCATION

MCA — Master of Computer Applications | Bharathiar University, Coimbatore | 2018

B.Sc — Bachelor of Computer Science | Bharathiar University, Coimbatore | 2016

LANGUAGES

Tamil, English
